### **PROFESSIONAL SUMMARY**

I am a highly detail-oriented and highly motivated Data Analyst committed to converting complex data into clear, actionable insights. I have excellent skill in Python, SQL, and Tableau and am committed to ensuring accuracy and integrity of the data for making confident and informed decisions. I have direct experience from an intense data analysis training program and a commendable track record of meeting goals and promoting best practice. As a collaborator and continuous learner, I enjoy working collaboratively and taking the initiative to improve. I am eager to bring my analytical mindset and enthusiasm to help drive business development and innovation.

### **TECH STACK:**

**Languages:** Python, SQL

**Libraries:** Pandas, NumPy, Matplotlib

**Data visualization:** Advanced MS. Excel, Power Bi, Tableau

Statistical methods, data mining techniques and VLOOKUP experience. Data cleaning, wrangling, and preprocessing.

**Tools:** Distributor Management System (DMS), Adobe Illustrator, Adobe Photoshop

**Soft skills:** Presentation & facilitation, Business Communication, Orientation to details, Growth mindset, Adaptability, Leadership, Teamwork and Interpersonal Skills.

### **WORK EXPERIENCE**

#### **DATA ANALYST BOOTCAMP GRADUATE,**

Generation, Ghana.

August - November 2025

- Created and presented data visualizations using Tableau and Power BI resulting in better presentation skills and a deeper understanding of data storytelling
- Demonstrated strong teamwork and problem-solving skills through group projects resulting in successful project completion and achievement of team goals
- Developed confidence in presenting complex data insights to stakeholders, leading to enhanced communication skills and increased self-assurance in professional settings
- Thrived in high-pressure environments, collaborating with individuals from various backgrounds, fostering a cooperative and productive work environment even in challenging situations.

#### **NESTLE GHANA LTD.**

Nov. 2023 - Nov 2024

- Utilized Excel to clean, sort, and analyze distributor sales and inventory data, resulting in more actionable insights for project decisions.
- Created detailed reports and dashboards, which increased the analytics team's efficiency in making informed strategic decisions.
- Conducted data validation, ensuring 99% accuracy and consistency of sales and inventory datasets, which improved data reliability for business analysis.
- Designed and implemented Excel templates for tracking employee attendance and performance metrics resulting in quicker report generation for meetings and 85% increase in attendance.
- Assisted in the creation of weekly and monthly distributor sales targets resulting in familiarity with reporting formats at executive levels.
- Utilized the Distributor Management System to track inventory, price control and performance of Van Sales Men resulting in competitive market prices and increased VSM performance by 65%.

### **Deloitte Australia Data Analytics Job Simulation**

October 2025

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions

### **EDUCATION & CERTIFICATIONS**

#### **DATA ANALYSIS PROGRAM**

Generation Ghana,  
November, 2025.

#### **BSC. BUSINESS ADMINISTRATION**

University of Ghana,  
January, 2024.

#### **DATA ANALYTICS JOB SIMULATION**

Deloitte Australia,  
October 2025.

## **PROJECTS**

### **BookStore Insights Dashboard**

Created a dashboard using Power BI Desktop. This project provides an overview and key metrics insight in the form of a dashboard of a list of books available in a bookstore to help the manager make data-driven informed decisions.

### **Daikibo Assembly Line Analysis**

Analyzed production and assembly line records to generate insights to help expedite repairs and plan operations very well for the growth of the company. Cleaned and analyzed the data for insights using Microsoft Excel and Tableau.
